

## Preflight after Maintenance

Repairs to an airplane with limited propulsion may have a weight penalty. A short presentation on preflight before maintenance will precede the main topic. The DaSHPa "Dead Simple Human Powered Airplane" flew for the first time December 5th at 7:32 a.m. at Half Moon Bay Airport in California.

**Directions:** US-101 South, take exit 326A to merge onto Airport Blvd. Turn left to stay on Airport Blvd., turn right to Skyway Blvd. The commuter terminal will be on your left and parking is across the road.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
